

Southern Tablelands Regional Botanic
Garden at Forest 20, National
Arboretum Canberra.

Of Interest at Forest 20, June 2023
Number 97

Crowea exalata (Ginninderra Falls) . Small Crowea. An attractive long flowering local species

Leptorhynchus squamatus Scaly Buttons. A variable perennial daisy that prefers moist heavy soils.

Solanum linearifolium . Mountain Kangaroo Apple.
The fruit are said to be edible but are toxic if unripe.

Leucochrysum albicans Hoary Sunray. An attractive everlasting daisy with white or yellow ray florets.

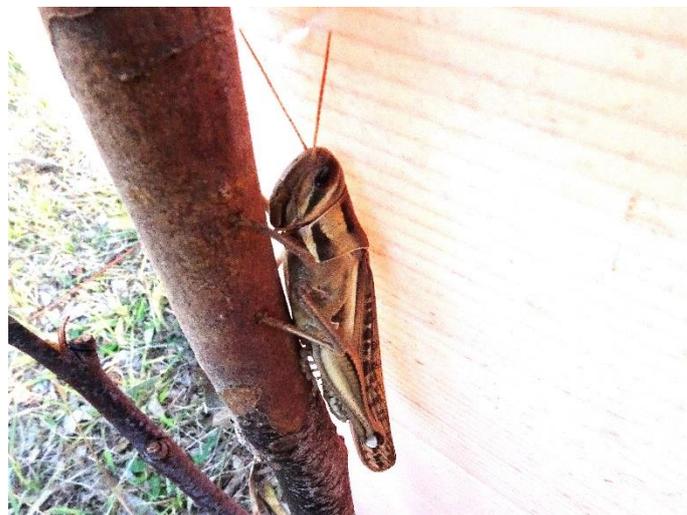

Ranunculus papulentus. Large River Buttercup.
Spreads by underground stolons and appreciates moisture.

Pultenaea pedunculata Matted Bush-pea. A rare and endangered species in NSW. It forms dense mats to a metre wide.

Brachyscome rigidula Cut-leaf Daisy. A sprawling wiry perennial daisy with blue to mauve ray florets.

Austracris guttulosa Spur-throated Locust. A significant sighting normally found in Queensland.

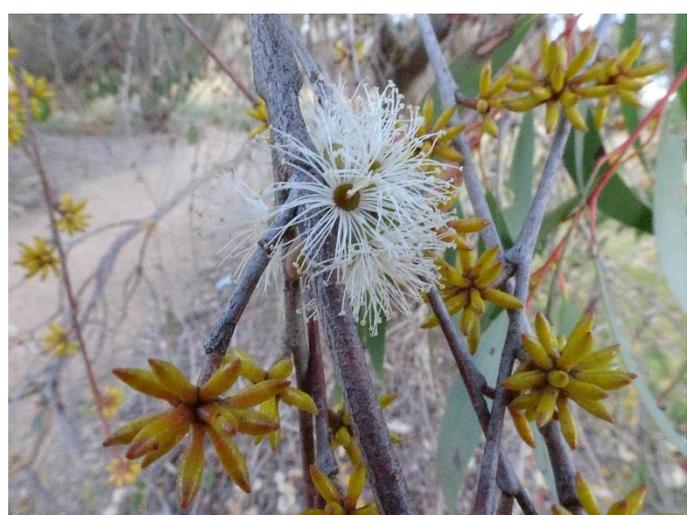

Gymnopilus junonius Spectacular Rustgill. Growing at the base of *Eucalyptus nortonii* Mealy Bundy.

Coronidium gunnianum Pale Everlasting. This everlasting daisy spreads by rhizomes and seed.

Xerochrysum viscosum Sticky Everlasting. A perennial daisy that will be cut back soon as new growth is coming at the base.

Eucalyptus stellulata Black Sallee. A subalpine species featured for the second successive month.

Our working bees are held each Thursday morning from 8am. Morning tea (byo) is at 10am at the tables near the shed. Tools are supplied. New volunteers are welcome, just turn up and make yourself known.
